### Elabscience Biotechnology Co., Ltd.

A Reliable Research Partner in Life Science and Medicine

# **SSTR1 Polyclonal Antibody**

catalog number: E-AB-12885

Note: Centrifuge before opening to ensure complete recovery of vial contents.

#### Description

**Reactivity** Human; Mouse; Rat

Immunogen Synthetic peptide of human SSTR1

Host Rabbit Isotype IgG

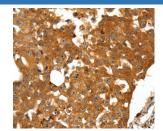

Purification Affinity purification
Conjugation Unconjugated

**Buffer** Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications Recommended Dilution

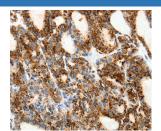

**IHC** 1:50-1:200

#### Data

Immunohistochemistry of paraffin-embedded Human breast cancer tissue using SSTR1 Polyclonal Antibody at dilution

1:50

Immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using SSTR1 Polyclonal Antibody at dilution 1:50

## Preparation & Storage

Storage Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

**Shipping** The product is shipped with ice pack, upon receipt, store it immediately at the

temperature recommended.

### Background

Somatostatins are peptide hormones that regulate diverse cellular functions such as neurotransmission, cell proliferation, and endocrine signaling as well as inhibiting the release of many hormones and other secretory proteins.

Somatostatin has two active forms of 14 and 28 amino acids. The biological effects of somatostatins are mediated by a family of G-protein coupled somatostatin receptors that are expressed in a tissue-specific manner. The protein encoded by this gene is a member of the superfamily of somatostatin receptors having seven transmembrane segments.

Somatostatin receptors form homodimers and heterodimers with other members of the superfamily as well as with other G-protein coupled receptors and receptor tyrosine kinases. This somatostatin receptor has greater affinity for somatostatin-14 than -28.
