

## Recombinant ATP6V0D1 Monoclonal Antibody

catalog number: AN303052L

**Note:** Centrifuge before opening to ensure complete recovery of vial contents.

| Description  |                                 |
|--------------|---------------------------------|
| Reactivity   | Human;Mouse;Rat                 |
| Host         | Rabbit                          |
| Isotype      | Rabbit IgG                      |
| Clone        | C112672                         |
| Purification | Affinity Purification           |
| Buffer       | 0.2 µm filtered solution in PBS |
| Applications | Recommended Dilution            |
| WB           | 1:1000                          |
| IHC-P        | 1:100                           |
| ICC/IF       | 1:100-1:200                     |
| FCM          | 1:100                           |
| IP           | 1:20-1:50                       |
| Data         |                                 |

Western Blot analysis of HepG2, HCT116, C2C12, PC-12 cells using ATP6V0D1 Monoclonal Antibody at dilution of 1:1000.

**Observed-MW:40 kDa**  
**Calculated-MW:40 kDa**

Immunofluorescent analysis of HeLa cells using ATP6V0D1 Monoclonal Antibody (green), and DAPI (blue).

Western Blot analysis of K562, C6, 3T3, HeLa cells and Rat brain using ATP6V0D1 Monoclonal Antibody at dilution of 1:1000.

**Observed-MW:40 kDa**  
**Calculated-MW:40 kDa**

Immunohistochemical analysis of paraffin-embedded Human colon cancer.

| Preparation & Storage |                                                                                                                                                                                                                                                    |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage               | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles. |
| Shipping              | Ice bag                                                                                                                                                                                                                                            |
