

Claudin 1 Polyclonal Antibody

catalog number: E-AB-12455

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human;Mouse;Rat
Immunogen	Synthetic peptide of human CLDN1
Host	Rabbit
Isotype	IgG
Purification	Affinity purification
Buffer	Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications Recommended Dilution

WB	1:1000-1:3000
IHC	1:100-1:300

Data

Western Blot analysis of Hela cell using Claudin 1 Polyclonal Antibody at dilution of 1:1100

Calculated-MW:23 kDa

Immunohistochemistry of paraffin-embedded Human cervical cancer using Claudin 1 Polyclonal Antibody at dilution of 1:150

Immunohistochemistry of paraffin-embedded Human esophagus cancer using Claudin 1 Polyclonal Antibody at dilution of 1:150

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended.

Background

For Research Use Only

Tight junctions represent one mode of cell-to-cell adhesion in epithelial or endothelial cell sheets, forming continuous seals around cells and serving as a physical barrier to prevent solutes and water from passing freely through the paracellular space. These junctions are comprised of sets of continuous networking strands in the outwardly facing cytoplasmic leaflet, with complementary grooves in the inwardly facing extracytoplasmic leaflet. The protein encoded by this gene, a member of the claudin family, is an integral membrane protein and a component of tight junction strands. Loss of function mutations result in neonatal ichthyosis-sclerosing cholangitis syndrome.
