

Recombinant ACTH Monoclonal Antibody

catalog number: AN301965L

Note: *Centrifuge before opening to ensure complete recovery of vial contents.*

Description

Reactivity	Human;Mouse;Rat
Immunogen	Recombinant protein of human POMC
Host	Rabbit
Isotype	Rabbit IgG
Clone	C111586
Purification	Protein A purified
Buffer	PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant.

Applications

Recommended Dilution

WB	1:1000
IHC-P	1:500-1:2000
ICC/IF	1:100

Data

Immunohistochemistry of paraffin-embedded Human pituitary using ACTH Monoclonal Antibody at dilution of 1:1000.

Immunohistochemistry of paraffin-embedded Rat pituitary using ACTH Monoclonal Antibody at dilution of 1:1000.

Immunohistochemistry of paraffin-embedded Human liver(Negative tissue) using ACTH Monoclonal Antibody at dilution of 1:100.

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	Ice bag

Rev. V1.5

ACTH, adrenocorticotrophic hormone, is a peptide hormone cleavage product of the POMC protein produced by the pituitary gland. ACTH plays an important role in stress and circadian rhythm signaling. Its primary action is on the adrenal cortex, where its binding induces the secretion of glucocorticoid steroid hormones. The peptide sequence for this hormone is highly evolutionarily conserved amongst mammals. Specifically, for mouse and rat, this sequence shares 100% identity.
