A Reliable Research Partner in Life Science and Medicine

# Recombinant Human ERP27 Protein (His Tag)

Catalog Number: PKSH033303

Note: Centrifuge before opening to ensure complete recovery of vial contents.

### Description

Species Human

Source HEK293 Cells-derived Human ERP27 protein Glu26-Leu273, with an C-terminal His

Calculated MW 28.8 kDa
Observed MW 32-38 kDa
Accession Q96DN0

**Bio-activity** Not validated for activity

#### **Properties**

**Purity** > 95 % as determined by reducing SDS-PAGE.

Endotoxin < 1.0 EU per µg of the protein as determined by the LAL method.

**Storage** Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80

°C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of

reconstituted samples are stable at < -20°C for 3 months.

ShippingThis product is provided as lyophilized powder which is shipped with ice packs.FormulationLyophilized from a 0.2 μm filtered solution of 20mM Tris-HCl, 150mM NaCl, pH 8.0.

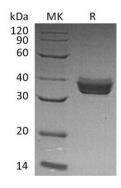

Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants

before lyophilization.

Please refer to the specific buffer information in the printed manual.

**Reconstitution** Please refer to the printed manual for detailed information.

# Data

> 95 % as determined by reducing SDS-PAGE.

## Background

Endoplasmic reticulum resident protein 27; also known as ER protein 27; C12orf46 and ERP27; is an endoplasmic reticulum luminal protein which is a member of the protein disulfide isomerase family. ERP27 contains one thioredoxin domain and does not contain a CXXC active site motif. ERP27 is widely expressed in many tissues; it has highest expression in pancreas; with lower levels in spleen; lung; kidney; thymus; and bone marrow. ERP27 interacts with PDIA3 and binds somatostatin-14 via hydrophobic interactions. ERP27 may act as a protease; protein disulfide isomerase; thio l-disulfide oxidase or phospholipase.
