## Recombinant Human Fetuin B Protein(Fc Tag)

## Catalog Number: PDMH100300

Note: Centrifuge before opening to ensure complete recovery of vial contents.

°C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months.	Description		
Calculated MW65.3 kDaObserved MW75-80 kDaAccessionQ9UGM5Bio-activityNot validated for activityPropertiesPurity> 90% as determined by reducing SDS-PAGE.Endotoxin< 1.0 EU/mg of the protein as determined by the LAL method	Species	Human	
Observed MW75-80 kDaAccessionQ9UGM5Bio-activityNot validated for activityPropertiesPurity> 90% as determined by reducing SDS-PAGE.Endotoxin< 1.0 EU/mg of the protein as determined by the LAL method	Source	Mammalian-derived Human Fetuin B proteins Cys16-Pro382, with an C-terminal Fc	
AccessionQ9UGM5Bio-activityNot validated for activityPropertiesPurity> 90% as determined by reducing SDS-PAGE.Findotoxin< 1.0 EU/mg of the protein as determined by the LAL method	Calculated MW	65.3 kDa	
Bio-activityNot validated for activityPropertiesPurity> 90% as determined by reducing SDS-PAGE.Endotoxin< 1.0 EU/mg of the protein as determined by the LAL method	Observed MW	75-80 kDa	
Properties   Purity > 90% as determined by reducing SDS-PAGE.   Endotoxin < 1.0 EU/mg of the protein as determined by the LAL method   Storage Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -8	Accession	Q9UGM5	
Purity> 90% as determined by reducing SDS-PAGE.Endotoxin< 1.0 EU/mg of the protein as determined by the LAL method	Bio-activity	Not validated for activity	
Endotoxin< 1.0 EU/mg of the protein as determined by the LAL methodStorageGenerally, lyophilized proteins are stable for up to 12 months when stored at -20 to -8 °C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months.ShippingThis product is provided as lyophilized powder which is shipped with ice packs. Lyophilized from a 0.2 μm filtered solution in PBS with 5% Trehalose and 5%	Properties

SDS-PAGE analysis of Human Fetuin B proteins , 2µg/lane of Recombinant Human Fetuin B proteins was resolved with SDS-PAGE under reducing conditions , showing bands at 75-80 KD

Background

For Research Use Only

## **Elabscience**®

Fetuin-B, also known as Fetuin-like protein IRL685 and FETUB, is a secreted protein which belongs to thefetuin family. Fetuin-B / FETUB contains twocystatin domains. Fetuin-B is a member of the fetuin family , part of the cystatin superfamily of cysteine protease inhibitors. Fetuins have been implicated in several diverse functions , including osteogenesis and bone resorption. Fetuin-A has been identified as a major protein during fetal life and is also involved in important functions such as protease inhibitory activities and development-associated regulation of calcium metabolism and osteogenesis. Fetuin-A is a key partner in the recovery phase of an acute inflammatory response. Fetui n-B / FETUB is found at least in Human and rodents. It is unambiguously a paralogue of Fetuin-A. Fetuin-A and Fetuin-B exhibit significant differences at the amino acid sequence level , notably including variations with respect to the archetypal fetuin-specific signature.
