

## Recombinant ATP1B3 Monoclonal Antibody

catalog number: AN303051L

**Note:** Centrifuge before opening to ensure complete recovery of vial contents.

| Description  |                                 |
|--------------|---------------------------------|
| Reactivity   | Human;Mouse;Rat                 |
| Host         | Rabbit                          |
| Isotype      | Rabbit IgG                      |
| Clone        | C122671                         |
| Purification | Affinity Purification           |
| Buffer       | 0.2 µm filtered solution in PBS |
| Applications | Recommended Dilution            |
| WB           | 1:1000-1:5000                   |
| IHC-P        | 1:50-1:100                      |
| Data         |                                 |

Western Blot analysis of C6,3T3 cells using ATP1B3  
Monoclonal Antibody at dilution of 1:1000.

**Observed-MW:40 kDa**

**Calculated-MW:32 kDa**

| Preparation & Storage |                                                                                                                                                                                                                                                    |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage               | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles. |
| Shipping              | Ice bag                                                                                                                                                                                                                                            |
