

## Elab Fluor® Violet 610 Anti-Mouse Ly-6G/Ly-6C Antibody[RB6-8C5]

Catalog Number: GFH1120UT

**Note:** Centrifuge before opening to ensure complete recovery of vial contents.

### Description

|                         |                                                                                                                                                                              |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                                                                                                                        |
| Host                    | Rat                                                                                                                                                                          |
| Isotype                 | Rat IgG2b, $\kappa$                                                                                                                                                          |
| Clone No.               | RB6-8C5                                                                                                                                                                      |
| Isotype Control         | Elab Fluor® Violet 610 Rat IgG2b, $\kappa$ Isotype Control[LTF-2] [Product E-AB-F09843T]                                                                                     |
| Conjugation             | Elab Fluor® Violet 610                                                                                                                                                       |
| Conjugation Information | Elab Fluor® Violet 610 is designed to be excited by the violet laser (405 nm) and detected using an optical filter centered near 613 nm (e.g., a 615/20 nm bandpass filter). |
| Storage Buffer          | Phosphate buffered solution, pH 7.2, containing 0.09% sodium azide.                                                                                                          |

### Applications

### Recommended usage

#### FCM

Each lot of this antibody is quality control tested by flow cytometric analysis. Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use. We suggest each investigator should titrate the reagent to obtain optimal results [The recommended concentration is 0.1-1  $\mu\text{g}/10^6$  cells in 100  $\mu\text{L}$  volume].

### Data

Staining of C57BL/6 murine bone marrow cells with FITC

Anti-Mouse/Human CD11b Antibody[M1/70] and Elab Fluor® Violet 610 Anti-Mouse Ly-6G/Ly-6C (Gr-1) Antibody[RB6-

8C5] (left) or Elab Fluor® Violet 610 Rat IgG2b,  $\kappa$  Isotype Control (right). Total viable cells were used for analysis.

### Preparation & Storage

|          |                                                                                                                                                           |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage  | Keep as concentrated solution.<br>This product can be stored at 2-8°C for 12 months. Please protected from prolonged exposure to light and do not freeze. |
| Shipping | Ice bag                                                                                                                                                   |

### Antigen Information

|                 |                                |
|-----------------|--------------------------------|
| Alternate Names | Gr-1;Gr1;Ly-6G/Ly-6C;Ly6G/Ly6C |
| Gene ID         | 546644;17067                   |
