A Reliable Research Partner in Life Science and Medicine

# Recombinant Human NUDT5/ADP-sugar Pyrophosphatase Protein (His Tag)

Catalog Number: PKSH030745

Note: Centrifuge before opening to ensure complete recovery of vial contents.

# Description

Species Human

**Source** E.coli-derived Human NUDT5/ADP-sugar Pyrophosphatase protein Glu2-Phe219, with

an N-terminal His

Mol\_Mass 26.3 kDa Accession Q9UKK9

**Bio-activity** Not validated for activity

## **Properties**

**Purity** > 90 % as determined by reducing SDS-PAGE.

**Endotoxin** Please contact us for more information.

**Storage** Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80

°C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of

reconstituted samples are stable at < -20°C for 3 months.

**Shipping** This product is provided as lyophilized powder which is shipped with ice packs.

**Formulation** Lyophilized from sterile 50mM Tris, 10% glycerol, pH 8.0

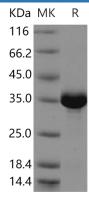

Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants

before lyophilization.

Please refer to the specific buffer information in the printed manual.

**Reconstitution** Please refer to the printed manual for detailed information.

# Data

> 90 % as determined by reducing SDS-PAGE.

## Background

ADP-sugar Pyrophosphatase, also known as NUDT5, eliminates toxic nucleotide derivatives from the cell and regulate the levels of important signaling nucleotides and their metabolites. NUDT5 functions as a MutT-related protein and catalyzes the hydrolysis of 8-oxoGDP to 8-oxoGMP, thereby preventing misincorporation of 8-oxoGua into RNA. NUDT5 may play significant roles in regulating the Gl-S transition in mammalian cells. It can also hydrolyze other nucleotide sugars with low activity.
