Product description

N-2 Supplement is a chemically defined, serum-free supplement based on Bottenstein's N-1 formulation. It is recommended to support the growth and expression of primary neuroblastoma and postmitotic neurons derived from the peripheral and central nervous systems. N-2 Supplement is provided as a 100 × concentrate for use with Neurobasal Medium (Cat. No. PM151223). It can also be used with DMEM/F12 Medium (Cat. No. PM150312) supplemented with growth factors such as bFGF and EGF.

Notes

1. This product is only used for scientific research or further research, not for diagnosis and treatment.
2. This product is 100 × concentrated solution and dilute it to to the desired concentration before use.
3. This product has been filtered and sterilized. Pay attention to aseptic operation to avoid contamination.
