TSTA3 Polyclonal Antibody

catalog number: E-AB-53147

Note: Centrifuge before opening to ensure complete recovery of vial contents.

| Description | | | |
|---|---|--|--|
| Description | | | |
| Reactivity | Human;Mouse | | |
| Immunogen | Fusion protein of human TSTA3 | | |
| Host | Rabbit | | |
| Isotype | IgG | | |
| Purification | Antigen affinity purificati | on | |
| Conjugation | Unconjugated | | |
| buffer | Phosphate buffered solut | Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. | |
| Applications | Recommended Dilution | | |
| IHC | 1:50-1:200 | | |
| Data | | | |
| tissue using TSTA3 Po | of paraffin-embedded Human brain olyclonal Antibody at dilution of 1:80(×200) | Immunohistochemistry of paraffin-embedded Human colorectal cancer tissue using TSTA3 Polyclonal Antibody at dilution of 1:80(×200) | |
| Preparation & Storage | | | |
| Storage | Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles. | | |
| Shipping | The product is shipped with ice pack,upon receipt, store it immediately at the | | |
| | temperature recommended. | | |

Tissue specific transplantation antigen P35B is a NADP(H)-binding protein. It catalyze the two-step epimerase and the reductase reactions in GDP-D-mannose metabolism, converting GDP-4-keto-6-D-deoxymannose to GDP-L-fucose. GDP-L-fucose is the substrate of several fucosyltransferases involved in the expression of many glycoconjugates, including blood group ABH antigens and developmental adhesion antigens. Mutations in this gene may cause leukocyte adhesion deficiency, type II.
