

A Reliable Research Partner in Life Science and Medicine

# Recombinant CUL4A/B Monoclonal Antibody

catalog number: AN301180L

Note: Centrifuge before opening to ensure complete recovery of vial contents.

### **Description**

Reactivity Human; Mouse; Rat

Immunogen Recombinant Human CUL4A/B protein

 Host
 Rabbit

 Isotype
 IgG,κ

 Clone
 B939

 Purification
 Protein A

Buffer PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant.

# Applications Recommended Dilution

IHC 1:200-1:1000 WB 1:2000-1:10000

#### Data

Western Blot with Recombinant CUL4A/B Monoclonal Antibody at dilution of 1:1000 dilution. Lane A: HeLa lysate.

Observed-MW:88 kDa,104 kDa Calculated-MW:88104 kDa Immunohistochemistry of paraffin-embedded human hepatocellular carcinoma using Recombinant CUL4A/B Monoclonal Antibody at dilution of 1:200.

# Preparation & Storage

Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

Shipping lce bag

## **Background**

CUL4A is the ubiquitin ligase component of a multimeric complex involved in the degradation of DNA damage-response proteins (Liu et al., 2009 [PubMed 19481525]).[supplied by OMIM, Oct 2009],CUL4B is a member of the cullin family. The encoded protein forms a complex that functions as an E3 ubiquitin ligase and catalyzes the polyubiquitination of specific protein substrates in the cell. The protein interacts with a ring finger protein, and is required for the proteolysis of several regulators of DNA replication including chromatin licensing and DNA replication factor 1 and cyclin E. Multiple transcript variants encoding different isoforms have been found for this gene.
