Reactivity Human; Mouse

Immunogen Recombinant protein of human TYR

Host Rabbit Isotype IgG

PurificationAffinity purificationConjugationUnconjugated

buffer Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications	Recommended Dilution

WB 1:500-1:2000 IHC 1:50-200

Data

Western Blot analysis of A375, Hela and Jurkat cell using TYR Polyclonal Antibody at dilution of 1:600

IHC by MLSBio

Immunohistochemistry of paraffin-embedded Skin tissue using TYR Polyclonal Antibody at dilution of 1:100 (Elabscience Product Detected by Lifespan).

Calculated-MV:60 kDa

Storage Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

Shipping The product is shipped with ice pack, upon receipt, store it immediately at the

temperature recommended.

Background

Preparation & Storage

The enzyme encoded by this gene catalyzes the first 2 steps, and at least 1 subsequent step, in the conversion of tyrosine to melanin. The enzyme has both tyrosine hydroxylase and dopa oxidase catalytic activities, and requires copper for function. Mutations in this gene result in oculocutaneous albinism, and nonpathologic polymorphisms result in skin pigmentation variation. The human genome contains a pseudogene similar to the 3' half of this gene.
