

A Reliable Research Partner in Life Science and Medicine

HAGH/GLO2/Glyoxalase II Monoclonal Antibody

catalog number: AN200063P

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human

Immunogen Recombinant Human HAGH / GLO2 / Glyoxalase II protein

 Host
 Mouse

 Isotype
 IgG1

 Clone
 A911

 Purification
 Protein A

Buffer 0.2 µm filtered solution in PBS

Applications Recommended Dilution

IHC-P 1:500-1:2000

Data

Immunohistochemistry of paraffin-embedded human kidney using HAGH / GLO2 / Glyoxalase II Monoclonal Antibody at dilution of 1:1000.

Preparation & Storage

Storage This antibody can be stored at 2°C-8°C for one month without detectable loss of

activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles.

Shipping Ice bag

Background

The enzyme encoded by this gene is classified as a thiolesterase and is responsible for the hydrolysis of S-lactoyl-glutathione to reduced glutathione and D-lactate. Three transcript variants encoding different isoforms have been found for this gene.
