# **Elabscience**®

# **MTHFS Polyclonal Antibody**

## catalog number: E-AB-52848

Note: Centrifuge before opening to ensure complete recovery of vial contents.

| Description  |  |
|--------------|--|
| Reactivity   | Human; Mouse   |
| Immunogen    | Fusion protein of human MTHFS  |
| Host         | Rabbit   |
| Isotype      | IgG  |
| Purification | Antigen affinity purification  |
| Buffer       | Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. |
| Applications | Pacammandad Dilution   |

| Applications | Recommended Dilution |
|--------------|----------------------|
| IHC          | 1:50-1:300           |
|              |                      |

#### Data

Immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using MTHFS Polyclonal Antibody at dilution

of 1:50(×200)

| Preparation & Storage |  |
|-----------------------|--|
| Storage               | Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.  |
| Shipping              | The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended. |
|                       |  |

### Background

The protein encoded by this gene is an enzyme that catalyzes the conversion of 5-formyltetrahydrofolate to 5,10methenyltetrahydrofolate, a precursor of reduced folates involved in 1-carbon metabolism. An increased activity of the encoded protein can result in an increased folate turnover rate and folate depletion. Three transcript variants encoding two different isoforms have been found for this gene.
