

GNAZ Polyclonal Antibody

Catalog Number:E-AB-10330

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human ,Mouse ,Rat
Immunogen	Recombinant protein of human GNAZ
Host	Rabbit
Isotype	IgG
Purification	Affinity purification
Conjugation	Unconjugated
Formulation	PBS with 0.05% sodium azide and 50% glycerol, PH7.4

Applications Recommended Dilution

WB	1:500-1:2000
-----------	--------------

Data

Western Blot analysis of Human fetal brain and brain malignant glioma, Mouse brain tissue using GNAZ Polyclonal Antibody at dilution of 1:400

Observed Mw:Refer to figures
Calculated Mw:41kDa

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

Guanine nucleotide-binding protein G(z) subunit alpha is a protein that in humans is encoded by the GNAZ gene. The protein encoded by this gene is a member of a G protein subfamily that mediates signal transduction in pertussis toxin-insensitive systems. This encoded protein may play a role in maintaining the ionic balance of perilymphatic and endolymphatic cochlear fluids. GNAZ has been shown to interact with EYA2, RGS20 and RGS19.
