

Coagulation Factor III/Tissue Factor Polyclonal Antibody(Capture/Detector)

catalog number: AN000060P

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

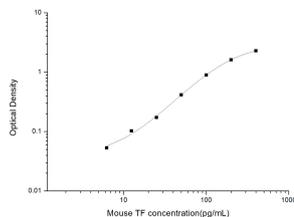

Reactivity	Mouse
Immunogen	Recombinant Mouse Coagulation Factor III protein expressed by E.coli
Host	Rabbit
Isotype	Rabbit IgG
Purification	Antigen Affinity Purification
Conjugation	Unconjugated
buffer	Phosphate buffered solution, pH 7.2, containing 0.05% proclin 300.

Applications

Recommended Dilution

ELISA Capture	2-8 µg/mL
ELISA Detector	0.1-0.4 µg/mL

Data

Sandwich ELISA-Recombinant Mouse Coagulation Factor III protein standard curve. Background subtracted standard curve using Coagulation Factor III/Tissue Factor antibody(AN000060P)(Capture), Coagulation Factor III/Tissue Factor antibody(AN000060P)(Detector) in sandwich ELISA. The reference range value for Recombinant Mouse Coagulation Factor III protein is 6.25-400 pg/mL.

Preparation & Storage

Storage	Store at 4°C valid for 12 months or -20°C valid for long term storage, avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended.

Background

This gene encodes a glycoprotein with an approximate molecular weight of 76.5 kDa. It is thought to have been created as a result of an ancient gene duplication event that led to generation of homologous C and N-terminal domains each of which binds one ion of ferric iron. The function of this protein is to transport iron from the intestine, reticuloendothelial system, and liver parenchymal cells to all proliferating cells in the body. This protein may also have a physiologic role as granulocyte/pollen-binding protein (GPBP) involved in the removal of certain organic matter and allergens from serum.
