0.9% Normal Saline

Cat. No.: PB180353
Size: 500mL

General Information

Product Form	Liquid
Concentration	0.009
pH	4.5-7.0
HEPES	Negative
NaCl	9000 mg/L
Storage	2-30°C
Shipping	Room Temperature
Expiration date	36 months

Background

Normal saline refers to the sodium chloride solution commonly used in physiological experiments or clinical practice, whose osmotic pressure is equal to that of animals or human body. It is commonly used as a fluid supplement and is also often used in vitro. Different types of animals require different concentrations of normal saline. Mammals use 0.9% normal saline, birds use 0.75% normal saline, and amphibians use 0.65% normal saline.

Notes

1. This product is only used for scientific research or further research, not for diagnosis and treatment.
2. This product is sterilized by 0.1 μm filtration.
3. It is necessary to pay attention to the aseptic operation and avoid the contamination.
