Recombinant Human PVRIG (C-mFc)

Catalog Number: PKSH034019

| Description | | |
|---------------------|--|--|
| Species | Human | |
| Mol_Mass | 40.1 kDa | |
| Accession | Q6DKI7 | |
| Bio-activity | Loaded Biotinylated Human Nectin-2-His on His Biosensor, can bind Human PVRIG | |
| | with an affinity constant of 84.68 nM as determined in BLI assay. | |
| Properties | | |
| Purity | > 95 % as determined by reducing SDS-PAGE. | |
| Endotoxin | < 1.0 EU per µg of the protein as determined by the LAL method. | |
| Storage | Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80 | |
| | °C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of | |
| | reconstituted samples are stable at $< -20^{\circ}$ C for 3 months. | |
| Shipping | This product is provided as lyophilized powder which is shipped with ice packs. | |
| Formulation | Lyophilized from a 0.2 µm filtered solution of PBS, pH 7.4. | |
| | Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants | |
| | before lyophilization. | |
| | Please refer to the specific buffer information in the printed manual. | |
| Reconstitution | Please refer to the printed manual for detailed information. | |

Note: Centrifuge before opening to ensure complete recovery of vial contents

> 95 % as determined by reducing SDS-PAGE.

Background

Data

Human PVRIG (poliovirus receptor related immunoglobulin domain-containing protein), also known as CD112 receptor (CD112R), is an approximately 34 kDa single transmembrane protein in the poliovirus receptor-like protein (PVR) family. The extracellular domain sequence of human and mouse PVRIG have approximately 65% similarity. PVRIG functions as a cell surface receptor for Nectin-2/CD112, a cell surface protein that is widely expressed on antigen-presenting cells and tumor cells. Disrupting the PVRIG/Nectin-2 interaction enhances human T cell response, suggesting PVRIG is a novel checkpoint for human T cells. PVRIG may act as a coinhibitory receptor that suppresses T-cell receptor-mediated signals.
