

Recombinant Survivin Monoclonal Antibody

catalog number: E-AB-81609

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human
Immunogen	Recombinant protein of human Survivin
Host	Rabbit
Isotype	Rabbit IgG
Clone	C373395
Purification	Affinity Purified
Buffer	50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.05% stabilizer and 0.05% protective protein.

Applications

Recommended Dilution

WB	1:500-1:1000
IF	1:20-1:100

Data

Western blot detection of Survivin in Jurkat cell lysates using Survivin Rabbit mAb(1:500 diluted). Predicted band size: 16kDa. Observed band size: 16kDa.

Observed-MW: 16 kDa

Calculated-MW: 16 kDa

Immunofluorescence of Survivin (green) in MCF-7 using Survivin antibody at dilution 1:20, and DAPI(blue)

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended.

Background

This gene is a member of the inhibitor of apoptosis (IAP) gene family, which encode negative regulatory proteins that prevent apoptotic cell death. IAP family members usually contain multiple baculovirus IAP repeat (BIR) domains, but this gene encodes proteins with only a single BIR domain. The encoded proteins also lack a C-terminus RING finger domain. Gene expression is high during fetal development and in most tumors, yet low in adult tissues. Alternatively spliced transcript variants encoding distinct isoforms have been found for this gene.
