

Recombinant Inhibin β-E Monoclonal Antibody

catalog number: AN301404L

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

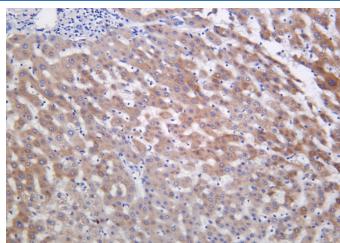

Reactivity	Human;Mouse;Rat
Immunogen	Recombinant Human Inhibin β-E protein
Host	Rabbit
Isotype	IgG,κ
Clone	B1171
Purification	Protein A
Buffer	PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant.

Applications

Recommended Dilution

IHC	1:200-1:1000
WB	1:2000-1:10000
IF	1:200-1:1000
ELISA	1:5000-1:20000

Data

Immunohistochemistry of paraffin-embedded human liver using Recombinant Inhibin β-E Monoclonal Antibody at dilution of 1:200.

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	Ice bag

Background

This gene encodes a member of the TGF-beta (transforming growth factor-beta) superfamily of proteins. The encoded preproprotein is proteolytically processed to generate an inhibin beta subunit. Inhibins have been implicated in regulating numerous cellular processes including cell proliferation, apoptosis, immune response and hormone secretion. This gene may be upregulated under conditions of endoplasmic reticulum stress, and this protein may inhibit cellular proliferation and growth in pancreas and liver.
