

A Reliable Research Partner in Life Science and Medicine

TPM3 Polyclonal Antibody

catalog number: E-AB-65867

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human; Mouse; Rat

Immunogen Recombinant fusion protein of human TPM3 (NP 689476.2).

Host Rabbit Isotype IgG

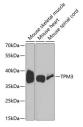

Purification Affinity purification

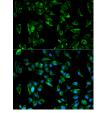

Buffer Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications Recommended Dilution

WB 1:500-1:2000 **IF** 1:50-1:200

Data

Western blot analysis of extracts of various cell lines using

TPM3 Polyclonal Antibody at dilution of 1:1000.

Immunofluorescence analysis of HeLa cells using TPM3
Polyclonal Antibody

Observed-MW:38 kDa

Calculated-MW:18 kDa/28 kDa/29 kDa/32 kDa

Preparation & Storage

Storage Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

Shipping The product is shipped with ice pack, upon receipt, store it immediately at the

temperature recommended.

Background

This gene encodes a member of the tropomyosin family of actin-binding proteins. Tropomyosins are dimers of coiled-coil proteins that provide stability to actin filaments and regulate access of other actin-binding proteins. Mutations in this gene result in autosomal dominant nemaline myopathy and other muscle disorders. This locus is involved in translocations with other loci, including anaplastic lymphoma receptor tyrosine kinase (ALK) and neurotrophic tyrosine kinase receptor type 1 (NTRK1), which result in the formation of fusion proteins that act as oncogenes. There are numerous pseudogenes for this gene on different chromosomes. Alternative splicing results in multiple transcript variants.
