Elabscience®

GGT1 Polyclonal Antibody

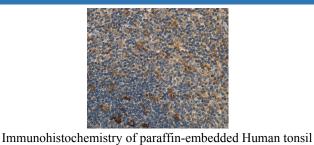

catalog number: E-AB-11265

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Human;Rat Recombinant protein of human GGT1
Rabbit
IgG
Affinity purification
Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.
Recommended Dilution
1:500-1:2000
1:50-1:200

Data

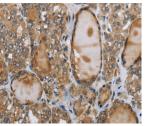

using GGT1 Polyclonal Antibody at dilution of 1:40

Western Blot analysis of Human fetal liver tissue using GGT1 Polyclonal Antibody at dilution of 1:300

Calculated-MW:61 kDa

Immunohistochemistry of paraffin-embedded Human thyroid

cancer using GGT1 Polyclonal Antibody at dilution of 1:40

Preparation & Storage

Storage Shipping Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles. The product is shipped with ice pack,upon receipt,store it immediately at the temperature recommended.

Elabscience®

The enzyme encoded by this gene is a type I gamma-glutamyltransferase that catalyzes the transfer of the glutamyl moiety of glutathione to a variety of amino acids and dipeptide acceptors. The enzyme is composed of a heavy chain and a light chain, which are derived from a single precursor protein. It is expressed in tissues involved in absorption and secretion and may contribute to the etiology of diabetes and other metabolic disorders. Multiple alternatively spliced variants have been identified. There are a number of related genes present on chromosomes 20 and 22, and putative pseudogenes for this gene on chromosomes 2, 13, and 22.
