# **DAO Polyclonal Antibody**

catalog number: D-AB-10400L

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

**Reactivity** Mouse

Immunogen Recombinant Human DAO Protein expressed by E.coli

Host Rabbit
Isotype IgG

**Purification** Antigen Affinity Purification

**Conjugation** Unconjugated

buffer PBS with 0.05% proclin 300, 1% protective protein and 50% glycerol,pH7.4

Applications Recommended Dilution

**WB** 1:500-1:1000

### Data

Western blot with DAO Polyclonal Antibody at dilution of

1:1000.lane 1:Mouse kidney Observed-MV:39 kDa Calculated-MV:39 kDa

## **Preparation & Storage**

Storage Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

**Shipping** The product is shipped with ice pack, upon receipt, store it immediately at the

temperature recommended.

## Background

D-Amino-Acid Oxidase (DAO) belongs to the DAMOX/DASOX family. DAO is a peroxisomal enzyme which founctions as a homodimer to oxidizes D-amino acids to the corresponding imino acids, producing ammonia and hydrogen peroxide. D-amino-acid oxidase regulates the level of the neuromodulator D-serine in the brain, has a high activity towards D-DOPA and contributes to dopamine synthesis. D-amino-acid oxidase could act as a detoxifying agent which removes D-amino acids accumulated during aging. It also acts on a variety of D-amino acids with a preference for those having small hydrophobic side chains followed by those bearing polar, aromatic, and basic groups.
