IGF1 Polyclonal Antibody

catalog number: E-AB-70301

Note: *Centrifuge before opening to ensure complete recovery of vial contents.*
Description

|	
Reactivity	Human
Immunogen	KLH conjugated Synthetic peptide corresponding to Mouse IGF1
Host	Rabbit
Isotype	IgG
Purification	Affinity purification
Buffer	Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer, 1% protein protectant and 50% glycerol.

| Applications	Recommended Dilution
IHC	1:300-1:1000

Data

Immunohistochemistry analysis of paraffin-embedded human liver cancer using IGF1 Polyclonal Antibody at dilution of 1:500.

Immunohistochemistry analysis of paraffin-embedded human kidney cancer using IGF1 Polyclonal Antibody at dilution of 1:500.

Immunohistochemistry analysis of paraffin-embedded human lymph nodes cancer using IGF1 Polyclonal Antibody at dilution of 1:500.

Preparation & Storage

Storage	Store at -20℃ Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack,upon receipt,store it immediately at the temperature recommended.

Rev. V1.6

IGF1, also named as IBP1, MGF, IGF-IA and Somatomedin-C, belongs to the insulin family. IGF1 is structurally and functionally related to insulin but have a much higher growth-promoting activity. Altered expression or mutation of IGF-1 is associated with several human disorders, including type I diabetes and various forms of cancer. Defects in IGF1 are the cause of insulin-like growth factor I deficiency (IGF1 deficiency) which is an autosomal recessive disorder characterized by growth retardation, sensorineural deafness and mental retardation. The antibody is specific to isoform IGF-1A.
