

VEGF R2/KDR Monoclonal Antibody(Capture)

catalog number: AN002270P

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human
Immunogen	Recombinant Human VEGF R2/KDR protein expressed by Mammalian
Host	Rat
Isotype	Rat IgG1
Clone	2A2
Purification	Protein A/G Purification
Buffer	Phosphate buffered solution, pH 7.2, containing 0.05% proclin 300.

Applications

ELISA Capture	2-8 µg/mL
----------------------	-----------

Data

Sandwich ELISA-Recombinant Human VEGF R2/KDR protein standard curve. Background subtracted standard curve using VEGF R2/KDR antibody(AN002270P) (Capture), VEGF R2/KDR antibody(AN002280P)(Detector) in sandwich ELISA. The reference range value for Recombinant Human VEGF R2/KDR protein is 78.13-5000 pg/mL.

Preparation & Storage

Storage	Store at 4°C valid for 12 months or -20°C valid for long term storage, avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended.

Background

Vascular endothelial growth factor (VEGF) is a major growth factor for endothelial cells. This gene encodes one of the two receptors of the VEGF. This receptor, known as kinase insert domain receptor, is a type III receptor tyrosine kinase. It functions as the main mediator of VEGF-induced endothelial proliferation, survival, migration, tubular morphogenesis and sprouting. The signalling and trafficking of this receptor are regulated by multiple factors, including Rab GTPase, P2Y purine nucleotide receptor, integrin alphaVbeta3, T-cell protein tyrosine phosphatase, etc. Mutations of this gene are implicated in infantile capillary hemangiomas.
