

YWHAG Polyclonal Antibody

catalog number: E-AB-15796

Note: Centrifuge before opening to ensure complete recovery of vial contents.

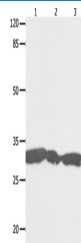

Description

Reactivity	Human;Mouse;Rat
Immunogen	Synthetic peptide of human YWHAG
Host	Rabbit
Isotype	IgG
Purification	Affinity purification
Buffer	Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications

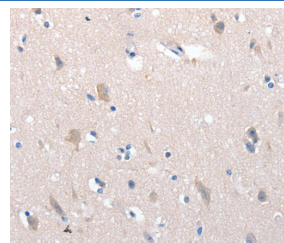

Applications	Recommended Dilution
WB	1:1000-1:5000
IHC	1:50-1:200

Data

Western Blot analysis of Hela, 293T and Jurkat cell using YWHAG Polyclonal Antibody at dilution of 1:1800

Calculated-MW:28 kDa

Immunohistochemistry of paraffin-embedded Human brain using YWHAG Polyclonal Antibody at dilution of 1:100

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended.

Background

This gene product belongs to the 14-3-3 family of proteins which mediate signal transduction by binding to phosphoserine-containing proteins. This highly conserved protein family is found in both plants and mammals, and this protein is 100% identical to the rat ortholog. It is induced by growth factors in human vascular smooth muscle cells, and is also highly expressed in skeletal and heart muscles, suggesting an important role for this protein in muscle tissue. It has been shown to interact with RAF1 and protein kinase C, proteins involved in various signal transduction pathways.
