

## Antibody Dilution Buffer

Cat. No: E-IR-R106

Size: 10 mL/ 50 mL/ 100 mL

Cat	Products	10 mL	50 mL	100 mL	Storage
E-IR-R106	Antibody Dilution Buffer	10 mL	50 mL	100 mL	2~8°C

### Introduction

There is no serum in this product, it has high signal-to-noise ratio and good compatibility. It can be compatible with horseradish peroxidase (HRP), alkaline phosphatase (AP) and biotin labeled second antibody. This product does not contain biotin and will not interfere with biotin based detection. And it is a Ready-to-Use product. It can be directly used for antibody dilution without any additional reagent.

### Experimental Procedure

1. Refer to the manuals of the primary or secondary antibody, and the content of the target protein in the sample, dilute the primary antibody or secondary antibody according to the appropriate proportion, such as 1:50, 1:100, etc. (for the specific dilution ratio, please dilute according to the rate of the manuals).
2. After the diluting of antibody with appropriate proportion, the mixture can be directly used for the incubation of immunohistochemistry or immunofluorescence experiment.

### Storage

Store at 2~8°C for 12 months. Avoid of freezing.

### Cautions

1. This product couldn't be used for clinical diagnosis or treatment, food or medicine, and can't be stored in residence.
2. For your safety and health, please wear the lab coat and disposable gloves before the experiments.
