

A Reliable Research Partner in Life Science and Medicine

Recombinant Snail Monoclonal Antibody

catalog number: AN301392L

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human; Mouse; Rat

Immunogen Recombinant Human Snail protein

HostRabbitIsotypeIgG,κCloneB1159PurificationProtein A

Buffer PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant.

Applications Recommended Dilution

WB 1:2000-1:10000

Data

Western Blot with Recombinant Snail Monoclonal Antibody

at dilution of 1:1000 dilution. Lane A: HeLa lysate.

Observed-MW:29 kDa Calculated-MW:29 kDa

Preparation & Storage

Storage Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

Shipping Ice bag

Background

SNAI1(snail family transcriptional repressor 1) Homo sapiens The Drosophila embryonic protein snail is a zinc finger transcriptional repressor which downregulates the expression of ectodermal genes within the mesoderm. The nuclear protein encoded by this gene is structurally similar to the Drosophila snail protein, and is also thought to be critical for mesoderm formation in the developing embryo. At least two variants of a similar processed pseudogene have been found on chromosome 2.
