

A Reliable Research Partner in Life Science and Medicine

Recombinant PPIL1 Monoclonal Antibody

catalog number: AN300275P

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human

Immunogen Recombinant Human PPIL1 Protein

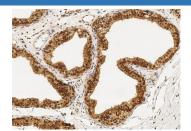

HostRabbitIsotypeIgGCloneB193PurificationProtein A

Buffer 0.2 µm filtered solution in PBS

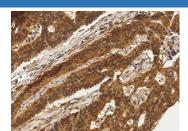

Applications Recommended Dilution

IHC-P 1:100-1:500

Data

Immunohistochemistry of paraffin-embedded human epididymis using PPIL1 Monoclonal Antibody at dilution of 1:200.

Immunohistochemistry of paraffin-embedded human colon carcinoma using PPIL1 Monoclonal Antibody at dilution of 1:200.

Preparation & Storage

Storage This antibody can be stored at 2°C-8°C for one month without detectable loss of

activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles.

Shipping Ice bag

Background

This gene is a member of the cyclophilin family of peptidylprolyl isomerases (PPlases). The cyclophilins are a highly conserved, ubiquitous family, members of which play an important role in protein folding, immunosuppression by cyclosporin A, and infection of HIV-2 virions. Based on similarity to other PPlases, this protein could accelerate the folding of proteins and might catalyze the cis-trans isomerization of proline imidic peptide bonds in oligopeptides.
