AMH Monoclonal Antibody

catalog number: AN200148P

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human

Immunogen Recombinant Human AMH Protein

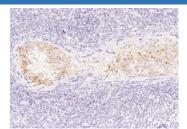

Host Mouse Isotype lgG1 Clone A996 **Purification** Protein A

Buffer 0.2 µm filtered solution in PBS

Applications Recommended Dilution

1:20-1:50 IHC-P

Data

Immunohistochemistry of paraffin-embedded human testis using AMH Monoclonal Antibody at dilution of 1:30.

Preparation & Storage

This antibody can be stored at 2°C-8°C for one month without detectable loss of Storage

activity. Antibody products are stable for twelve months from date of receipt when

stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles.

Shipping Ice bag

Background

Anti-Mullerian hormone is a member of the transforming growth factor-beta gene family which mediates male sexual differentiation. Anti-Mullerian hormone causes the regression of Mullerian ducts which would otherwise differentiate into the uterus and fallopian tubes. Some mutations in the anti-Mullerian hormone result in persistent Mullerian duct syndrome.
