ZWINT Polyclonal Antibody

catalog number: **E-AB-14670**

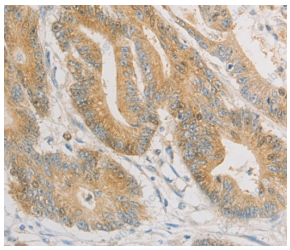

Note: *Centrifuge before opening to ensure complete recovery of vial contents.*

Description

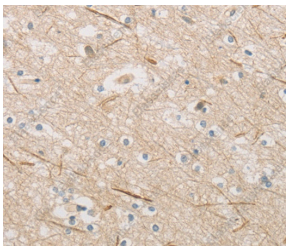

Reactivity	Human
Immunogen	Recombinant protein of human ZWINT
Host	Rabbit
Isotype	Rabbit IgG
Purification	Affinity purification
Buffer	Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications	Recommended Dilution
IHC	1:50-1:200

Data

Immunohistochemistry of paraffin-embedded Human colon cancer tissue using ZWINT Polyclonal Antibody at dilution 1:50

Immunohistochemistry of paraffin-embedded Human brain tissue using ZWINT Polyclonal Antibody at dilution 1:50

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack,upon receipt,store it immediately at the temperature recommended.

Background

This gene encodes a protein that is clearly involved in kinetochore function although an exact role is not known.It interacts with ZW10, another kinetochore protein, possibly regulating the association between ZW10 and kinetochores.The encoded protein localizes to prophase kinetochores before ZW10 does and it remains detectable on the kinetochore until late anaphase.It has a uniform distribution in the cytoplasm of interphase cells.Alternatively spliced transcript variants encoding different isoforms have been found for this gene.
