

TPPP Polyclonal Antibody

Catalog Number:E-AB-18394

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human, Mouse
Immunogen	Full length fusion protein
Host	Rabbit
Isotype	IgG
Purification	Antigen affinity purification
Conjugation	Unconjugated
Formulation	PBS with 0.05% NaN ₃ and 40% Glycerol,pH7.4

Applications Recommended Dilution

WB	1:500-1:2000
IHC	1:25-1:100
ELISA	1:5000-1:10000

Data

Western blot analysis of Human fetal brain tissue using TPPP Polyclonal Antibody at dilution of 1:250

Observed MW:Refer to figures
Calculated Mw:24 kDa

Immunohistochemistry of paraffin-embedded Human liver cancer tissue using TPPP Polyclonal Antibody at dilution of 1:25(×200)

Immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using TPPP Polyclonal Antibody at dilution of 1:25(×200)

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

Tubulin family members are globular proteins important in the assembly of microtubules. Microtubules are structural

TPPP Polyclonal Antibody

Catalog Number: E-AB-18394

components that play important roles in mitosis, cytokinesis and vesicle transport. TPPP (Tubulin polymerization-promoting protein), also known as p24 and p25, is a widely expressed 219 amino acid protein found in the perinuclear region of the cytoplasm. TPPP may form dimers and functions in polymerizing tubulin into double-walled tubules, polymorphic aggregates, or stabilized blocks. TPPP overexpression prevents formation of the mitotic spindle assembly and breakdown of the nuclear envelope. TPPP is phosphorylated by TPK II and is encoded by a gene that maps to human chromosome 5, which contains 181 million base pairs and comprises nearly 6% of the human genome. May play a role in the polymerization of tubulin into microtubules, microtubule bundling and the stabilization of existing microtubules, thus maintaining the integrity of the microtubule network. May play a role in mitotic spindle assembly and nuclear envelope breakdown.
