14-3-3 epsilon Polyclonal Antibody

catalog number: E-AB-15794

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human; Mouse; Rat

Immunogen Synthetic peptide of human YWHAE

Host Rabbit Isotype IgG

Purification Affinity purification

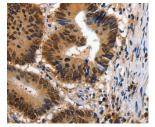

Buffer Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications Recommended Dilution

1:1000-1:5000 WB 1:100-1:300 IHC

Data

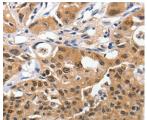

laryngocarcinoma tissue using 14-3-3 epsilon Polyclonal

Antibody at dilution of 1:2200

Western Blot analysis of Human brain malignant glioma and Immunohistochemistry of paraffin-embedded Human colon cancer using 14-3-3 epsilon Polyclonal Antibody at dilution of 1:100

Calculated-MW:29 kDa

Immunohistochemistry of paraffin-embedded Human lung cancer using 14-3-3 epsilon Polyclonal Antibody at dilution of 1:100

Preparation & Storage

Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles. Storage

Shipping The product is shipped with ice pack, upon receipt, store it immediately at the

temperature recommended.

This gene product belongs to the 14-3-3 family of proteins which mediate signal transduction by binding to phosphoserine-containing proteins. This highly conserved protein family is found in both plants and mammals, and this protein is 100% identical to the mouse ortholog. It interacts with CDC25 phosphatases, RAF1 and IRS1 proteins, suggesting its role in diverse biochemical activities related to signal transduction, such as cell division and regulation of insulin sensitivity. It has also been implicated in the pathogenesis of small cell lung cancer. Two transcript variants, one protein-coding and the other non-protein-coding, have been found for this gene.
