## **Elabscience**®

## **CLEC16A Polyclonal Antibody**

## catalog number: E-AB-16647

Note: Centrifuge before opening to ensure complete recovery of vial contents.

## Background

This gene encodes a member of the C-type lectin domain containing family. Single nucleotide polymorphisms in introns of this gene have been associated with diabetes mellitus, multiple sclerosis and rheumatoid arthritis. Multiple transcript variants encoding different isoforms have been found for this gene.
