## **Elabscience**®

## Elab Fluor<sup>®</sup> 647 Anti-Human CD11a Antibody[TS1/22.1.1.13]

## Catalog Number: E-AB-F1055M

Note: Centrifuge before opening to ensure complete recovery of vial contents.

| Description             |   |
|-------------------------|---|
| Reactivity              | Human   |
| Host                    | Mouse   |
| lsotype                 | Mouse IgG1, κ   |
| Clone No.               | TS1/22.1.1.13   |
| Isotype Control         | Elab Fluor <sup>®</sup> 647 Mouse IgG1, κ Isotype Control[MOPC-21] [Product E-AB-F09792M]   |
| Conjugation             | Elab Fluor <sup>®</sup> 647   |
| Conjugation Information | Elab Fluor <sup>®</sup> 647 is designed to be excited by the Red laser (627-640 nm) and detected using an optical filter centered near 670 nm (e.g., a 660/20 nm bandpass filter).  |
| Storage Buffer          | Phosphate buffered solution, pH 7.2, containing 0.09% sodium azide and 1% BSA.  |
| Applications            | Recommended usage   |
| FCM                     | Each lot of this antibody is quality control tested by flow cytometric analysis. The amount<br>of the reagent is suggested to be used 5 $\mu$ L of antibody per test (million cells in 100<br>$\mu$ L staining volume or per 100 $\mu$ L of whole blood). Please check your vial before the<br>experiment. Since applications vary, the appropriate dilutions must be determined for<br>individual use. |

| Preparation & Storage |   |
|-----------------------|---|
| Storage               | Keep as concentrated solution.  |
|                       | This product can be stored at 2-8°C for 12 months. Please protected from prolonged exposure to light and do not freeze. |
| Shipping              | Ice bag   |
| Antigen Information   |   |
| Alternate Names       | CD11 antigen-like family member A;CD11a;Integrin alpha-L;Itgal;LFA-1A;Ly-15;  |
|                       | Lymphocyte antigen 15   |
| Uniprot ID            | P20701  |
| Gene ID               | 3683  |
| Background            | CD11a is a 170-180 kD type I transmembrane glycoprotein also known as LFA-1 $lpha$                                      |
|                       | chain and integrin $\alpha L$ subunit. CD11a non-covalently associates with integrin $\beta 2$ (CD1                     |
|                       | 8) to form LFA-1. It is expressed on all leukocytes, including B and T lymphocytes,                                     |
|                       | monocytes, macrophages, neutrophils, basophils and eosinophils. It is absent on non-                                    |
|                       | hematopoietic tissues and platelets. CD11a plays a central role in leukocyte cell-cell                                  |
|                       | interactions and is important in lymphocyte costimulation. CD11a/CD18 binds to ICAM-                                    |
|                       | 1 (CD54), ICAM-2 (CD102), and ICAM-3 (CD50).  |
