

A Reliable Research Partner in Life Science and Medicine

GOT2 Monoclonal Antibody

catalog number: AN200071P

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human

Immunogen A synthetic peptide corresponding to the C-terminus of the Human GOT2

 Host
 Mouse

 Isotype
 IgG1

 Clone
 A919

 Purification
 Protein A

Buffer 0.2 µm filtered solution in PBS

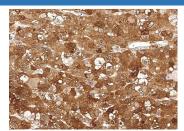

Applications Recommended Dilution

IHC-P 1:50-1:200

Data

Immunohistochemistry of paraffin-embedded human liver using GOT2 Monoclonal Antibody at dilution of 1:100.

Immunohistochemistry of paraffin-embedded human hepatoma using GOT2 Monoclonal Antibody at dilution of 1:100.

Preparation & Storage

Storage This antibody can be stored at 2°C-8°C for one month without detectable loss of

activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles.

Shipping Ice bag

Background

Glutamic-oxaloacetic transaminase is a pyridoxal phosphate-dependent enzyme which exists in cytoplasmic and inner-membrane mitochondrial forms, GOT1 and GOT1, respectively. GOT plays a role in amino acid metabolism and the urea and tricarboxylic acid cycles. The two enzymes are homodimeric and show close homology. Two transcript variants encoding different isoforms have been found for this gene.
