

## PE/Elab Fluor® 594 Mouse IgG3, κ Isotype Control[A112-3]

**Catalog Number:** GFH09753P

**Note:** Centrifuge before opening to ensure complete recovery of vial contents.

| Description                    |                                                                                                                                                                                                                   |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Host</b>                    | Mouse                                                                                                                                                                                                             |
| <b>Isotype</b>                 | Mouse IgG3, κ                                                                                                                                                                                                     |
| <b>Clone No.</b>               | A112-3                                                                                                                                                                                                            |
| <b>Conjugation</b>             | PE/Elab Fluor® 594                                                                                                                                                                                                |
| <b>Conjugation Information</b> | PE/Elab Fluor® 594 is designed to be excited by the blue (488 nm), Green (532 nm) and yellow-green (561 nm) lasers and detected using an optical filter centered near 620 nm (e.g., a 610/20 nm bandpass filter). |
| <b>Storage Buffer</b>          | Phosphate buffered solution, pH 7.2, containing 0.09% sodium azide.                                                                                                                                               |
| Applications                   |                                                                                                                                                                                                                   |
| <b>FCM</b>                     | Each lot of this antibody is quality control tested by flow cytometric analysis as negative control. Use at concentrations comparable to those of the specific antibody of interest.                              |
| Preparation & Storage          |                                                                                                                                                                                                                   |
| <b>Storage</b>                 | Keep as concentrated solution.<br>This product can be stored at 2-8°C for 12 months. Please protected from prolonged exposure to light and do not freeze.                                                         |
| <b>Shipping</b>                | Ice bag                                                                                                                                                                                                           |
