

Recombinant Human Ras-related protein Rab-14/RAB14 protein (His Tag)

Catalog Number: PDEH101005

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Species	Human
Source	E.coli-derived Human Ras-related Rab-14 protein Ala2-Cys215, with an N-terminal His & C-terminal His
Calculated MW	23.4 kDa
Observed MW	31 kDa
Accession	P61106
Bio-activity	Not validated for activity

Properties

Purity	> 95% as determined by reducing SDS-PAGE.
Endotoxin	< 10 EU/mg of the protein as determined by the LAL method
Storage	Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80 °C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months.
Shipping	This product is provided as lyophilized powder which is shipped with ice packs.
Formulation	Lyophilized from a 0.2 µm filtered solution in PBS with 5% Trehalose and 5% Mannitol.
Reconstitution	It is recommended that sterile water be added to the vial to prepare a stock solution of 0.5 mg/mL. Concentration is measured by UV-Vis.

Data

> 95 % as determined by reducing SDS-PAGE.

Background

RAB14 is a member of Rab GTPases that regulate the roles and identity of endosomes. Rab14 collaborates with FAM116 in regulating proteolytic cleavage of N-cadherin, and modulation of cell-cell adhesion and cell motility. Rab14 mediates the endocytic transport of GLUT4 from cytoplasmic compartments to cell surface.
