

## SNRNP40 Polyclonal Antibody

catalog number: E-AB-92134

**Note:** Centrifuge before opening to ensure complete recovery of vial contents.

| Description  |                                                                                    |
|--------------|------------------------------------------------------------------------------------|
| Reactivity   | Human;Mouse                                                                        |
| Immunogen    | Recombinant fusion protein of human SNRNP40                                        |
| Host         | Rabbit                                                                             |
| Isotype      | Rabbit IgG                                                                         |
| Purification | Affinity purification                                                              |
| Buffer       | Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. |
| Applications |                                                                                    |
| WB           | 1:500-1:2000                                                                       |

| Data                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                            |

|  <p>Western blot analysis of extracts of various cell lines using SNRNP40 Polyclonal Antibody at 1:1000 dilution.</p> <p><b>Observed-MW:40 kDa</b></p> |  <p>Western blot analysis of extracts of various cell lines using SNRNP40 Polyclonal Antibody at 1:1000 dilution.</p> <p><b>Observed-MW:40 kDa</b></p> |

| Preparation & Storage |                                                                                                        |
|-----------------------|--------------------------------------------------------------------------------------------------------|
| Storage               | Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.                                        |
| Shipping              | The product is shipped with ice pack,upon receipt,store it immediately at the temperature recommended. |

| Background                                                                                                                                                                                                                                                     |  |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| <p>This gene encodes a component of the U5 small nuclear ribonucleoprotein (snRNP) particle. The U5 snRNP is part of the spliceosome, a multiprotein complex that catalyzes the removal of introns from pre-messenger RNAs. [provided by RefSeq, Jul 2008]</p> |  |
