

MAGEA11 Polyclonal Antibody

catalog number: E-AB-91101

Note: Centrifuge before opening to ensure complete recovery of vial contents.

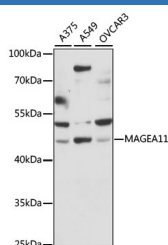

Description

Reactivity	Human
Immunogen	Recombinant fusion protein of human MAGEA11
Host	Rabbit
Isotype	IgG
Purification	Affinity purification
Buffer	Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications Recommended Dilution

WB	1:200-1:2000
-----------	--------------

Data

Western blot analysis of extracts of various cell lines using MAGEA11 Polyclonal Antibody at 1:1000 dilution.

Observed-MW:48 kDa

Calculated-MW:44 kDa/48 kDa

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended.

Background

This gene is a member of the MAGEA gene family. The members of this family encode proteins with 50 to 80% sequence identity to each other. The promoters and first exons of the MAGEA genes show considerable variability, suggesting that the existence of this gene family enables the same function to be expressed under different transcriptional controls. The MAGEA genes are clustered at chromosomal location Xq28. They have been implicated in some hereditary disorders, such as dyskeratosis congenita. Two transcript variants encoding different isoforms have been found for this gene.
