Elabscience®

SYT11 Polyclonal Antibody

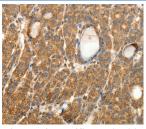

catalog number: E-AB-10622

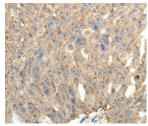

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Applications	Recommended Dilution	
Buffer	Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.	
Purification	Affinity purification	
Isotype	IgG	
Host	Rabbit	
Immunogen	Recombinant protein of human SYT11	
Reactivity	Human;Mouse;Rat	
Description		

IHC 1:50-1:200

Data

Immunohistochemistry of paraffin-embedded Human thyroid Immunohistochemistry of paraffin-embedded Human ovarian cancer tissue using SYT11 Polyclonal Antibody at dilution 1:30 1:30

	1.50	1.50
Preparation & Storage		
Storage	Store a	t -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	-	oduct is shipped with ice pack, upon receipt, store it immediately at the ature recommended.

Background

This gene is a member of the synaptotagmin gene family and encodes a protein similar to other family members that are known calcium sensors and mediate calcium-dependent regulation of membrane trafficking in synaptic transmission. The encoded protein is also a substrate for ubiquitin-E3-ligase parkin. The gene has previously been referred to as synaptotagmin XII but has been renamed synaptotagmin XI to be consistent with mouse and rat official nomenclature.
