

## Streptavidin(peroxidase/HRP conjugated)

catalog number: E-AB-1043

**Note:** *Centrifuge before opening to ensure complete recovery of vial contents.*

### Description

|                     |                                                                          |
|---------------------|--------------------------------------------------------------------------|
| <b>Purification</b> | Affinity purification                                                    |
| <b>Buffer</b>       | PBS with 0.1% Proclin300, 1% protective protein and 50% glycerol, pH 7.4 |

### Applications

### Recommended Dilution

|              |                                                   |
|--------------|---------------------------------------------------|
| IHC-F        | 1:100-500                                         |
| IHC-P        | 1:100-200                                         |
| WB           | 1:3000-10000(Enhanced chemiluminescent detection) |
| WB           | 1:500-3000(DAB detection)                         |
| Direct ELISA | 1:10000-100000(TMB detection)                     |

### Preparation & Storage

|                 |                                                                 |
|-----------------|-----------------------------------------------------------------|
| <b>Storage</b>  | Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles. |
| <b>Shipping</b> | Ice bag                                                         |
