

**Elab Fluor® 647 Rat IgG2a,  $\lambda$  Isotype Control[B39-4]****Catalog Number:** GFH09742M**Note:** Centrifuge before opening to ensure complete recovery of vial contents.**Description**

|                                |                                                                                                                                                                        |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Host</b>                    | Rat                                                                                                                                                                    |
| <b>Isotype</b>                 | Rat IgG2a, $\lambda$                                                                                                                                                   |
| <b>Clone No.</b>               | B39-4                                                                                                                                                                  |
| <b>Conjugation</b>             | Elab Fluor® 647                                                                                                                                                        |
| <b>Conjugation Information</b> | Elab Fluor® 647 is designed to be excited by the Red laser (627-640 nm) and detected using an optical filter centered near 670 nm (e.g., a 660/20 nm bandpass filter). |
| <b>Storage Buffer</b>          | Phosphate buffered solution, pH 7.2, containing 0.09% sodium azide.                                                                                                    |

**Applications****Recommended usage**

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>FCM</b> | Each lot of this antibody is quality control tested by flow cytometric analysis. <b>The amount of the reagent is suggested to be used 5 <math>\mu</math>L of antibody per test (million cells in 100 <math>\mu</math>L staining volume or per 100 <math>\mu</math>L of whole blood).</b> Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use. |
