## Elab Fluor<sup>®</sup> Violet 540 Anti-Human CD4 Antibody[RPA-T4]

Catalog Number: E-AB-F1109T3

Note: Centrifuge before opening to ensure complete recovery of vial contents.

| Description             |   |
|-------------------------|---|
| Reactivity              | Human   |
| Host                    | Mouse   |
| lsotype                 | Mouse IgG1, κ   |
| Clone No.               | RPA-T4  |
| Isotype Control         | Elab Fluor <sup>®</sup> Violet 540 Mouse IgG1, к Isotype Control[MOPC-21] [Product E-AB-<br>F09792T3]   |
| Conjugation             | Elab Fluor <sup>®</sup> Violet 540  |
| Conjugation Information | Elab Fluor <sup>®</sup> Violet 540 is designed to be excited by the violet laser (405 nm) and detected using an optical filter centered near 548 nm (e.g., a 572/28 nm bandpass filter).  |
| Storage Buffer          | Phosphate buffered solution, pH 7.2, containing 0.09% sodium azide and 1% BSA.  |
| Applications            | Recommended usage   |
| FCM                     | Each lot of this antibody is quality control tested by flow cytometric analysis. The amount<br>of the reagent is suggested to be used 5 $\mu$ L of antibody per test (million cells in 100<br>$\mu$ L staining volume or per 100 $\mu$ L of whole blood). Please check your vial before the<br>experiment. Since applications vary, the appropriate dilutions must be determined for<br>individual use. |

Data

Staining of normal human peripheral blood cells with APC

Anti-Human CD3 Antibody[OKT-3] and Elab Fluor<sup>®</sup> Violet 540 Anti-Human CD4 Antibody[RPA-T4](left) or Elab Fluor<sup>®</sup> Violet 540 Mouse IgG1,  $\kappa$  Isotype Control(right). Cells in the lymphocytes gate were used for analysis.

| Preparation & Storage         |  |
|-------------------------------|--|
| Storage                       | Keep as concentrated solution.<br>This product can be stored at 2-8°C for 12 months. Please protected from prolonged<br>exposure to light and do not freeze. |
| Shipping                      | Ice bag  |
| Antigen Information           |  |
| Alternate Names<br>Uniprot ID | CD4;T-cell surface antigen T4/Leu-3;T-cell surface glycoprotein CD4<br>P01730  |

## **Elabscience**®

| Gene ID    | 920   |
|------------|---|
| Background | CD4, also known as T4/Leu-3, is a 55 kD single-chain type I transmembrane             |
|            | glycoprotein and member of the immunoglobulin superfamily. It is expressed on most    |
|            | thymocytes, helper T cells, type II NKT cells, and monocytes/macrophages. CD4 is part |

of the TCR/CD3 complex, binds to  $\beta$ 2 domain from the MHC class II molecule, and participates in TCR signal transduction. CD4 is the receptor of IL-16 and is a

coreceptor for the human immunodeficiency virus (HIV) and human herpes virus 7 ( HHV-7).
