

## Recombinant SLC31A1 Monoclonal Antibody

catalog number: AN303499L

**Note:** Centrifuge before opening to ensure complete recovery of vial contents.

### Description

|              |                                 |
|--------------|---------------------------------|
| Reactivity   | Human                           |
| Host         | Rabbit                          |
| Isotype      | Rabbit IgG                      |
| Clone        | C333119                         |
| Purification | Affinity Purification           |
| Buffer       | 0.2 µm filtered solution in PBS |

### Applications

### Recommended Dilution

|    |               |
|----|---------------|
| WB | 1:1000-1:5000 |
|----|---------------|

### Data

Western Blot analysis of HeLa, CHO-K1, Rat brain, Ramos cells using SLC31A1/CTR1 Monoclonal Antibody at dilution of 1:1000.

**Observed-MW: 26 kDa/34 kDa**

**Calculated-MW: 21 kDa**

### Preparation & Storage

|                 |                                                                                                                                                                                                                                                    |
|-----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Storage</b>  | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles. |
| <b>Shipping</b> | Ice bag                                                                                                                                                                                                                                            |
