

VEGF R2/KDR Monoclonal Antibody(Detector)

catalog number: AN002280P

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human
Immunogen	Recombinant Human VEGF R2/KDR protein expressed by Mammalian
Host	Rat
Isotype	Rat IgG1
Clone	10A11
Purification	Protein A/G Purification
Conjugation	Unconjugated
Buffer	Phosphate buffered solution, pH 7.2, containing 0.05% proclin 300.

Applications

Recommended Dilution

ELISA Detector	0.1-0.4 µg/mL
-----------------------	---------------

Data

Sandwich ELISA-Recombinant Human VEGF R2/KDR protein standard curve. Background subtracted standard curve using VEGF R2/KDR antibody(AN002270P) (Capture), VEGF R2/KDR antibody(AN002280P)(Detector) in sandwich ELISA. The reference range value for Recombinant Human VEGF R2/KDR protein is 78.13-5000 pg/mL.

Preparation & Storage

Storage	Store at 4°C valid for 12 months or -20°C valid for long term storage, avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended.

Background

Vascular endothelial growth factor (VEGF) is a major growth factor for endothelial cells. This gene encodes one of the two receptors of the VEGF. This receptor, known as kinase insert domain receptor, is a type III receptor tyrosine kinase. It functions as the main mediator of VEGF-induced endothelial proliferation, survival, migration, tubular morphogenesis and sprouting. The signalling and trafficking of this receptor are regulated by multiple factors, including Rab GTPase, P2Y purine nucleotide receptor, integrin alpha Vbeta3, T-cell protein tyrosine phosphatase, etc. Mutations of this gene are implicated in infantile capillary hemangiomas.
