A Reliable Research Partner in Life Science and Medicine

TGFA Polyclonal Antibody

catalog number: E-AB-10642

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human; Mouse; Rat

Immunogen Recombinant protein of human TGFA

Host Rabbit
Isotype IgG

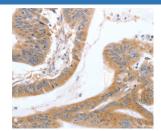

Purification Affinity purification
Conjugation Unconjugated

Buffer Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications Recommended Dilution

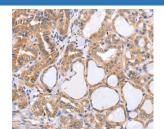

IHC 1:50-1:200

Data

Immunohistochemistry of paraffin-embedded Human colon cancer tissue using TGFA Polyclonal Antibody at dilution

1:60

Immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using TGFA Polyclonal Antibody at dilution 1:60

Preparation & Storage

Storage Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

Shipping The product is shipped with ice pack, upon receipt, store it immediately at the

temperature recommended.

Background

This gene encodes a growth factor that is a ligand for the epidermal growth factor receptor, which activates a signaling pathway for cell proliferation, differentiation and development. This protein may act as either a transmembrane-bound ligand or a soluble ligand. This gene has been associated with many types of cancers, and it may also be involved in some cases of cleft lip/palate. Alternatively spliced transcript variants encoding different isoforms have been found for this gene.
