### PE Anti-Mouse CD14 Antibody[Sa14-2]

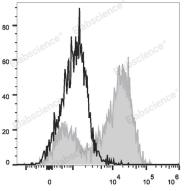

Catalog Number: E-AB-F1176UD

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description		
Reactivity	Mouse	
Host	Rat	
lsotype	Rat lgG2a, κ	
Clone No.	Sa14-2	
Isotype Control	PE Rat IgG2a, κ Isotype Control[2A3] [Product E-AB-F09833D]	
Conjugation	PE	
Conjugation Information	PE is designed to be excited by the Blue (488 nm), Green (532 nm) and Yellow-Green (561 nm) lasers and detected using an optical filter centered near 575 nm (e.g., a 585/42 nm bandpass filter).	
Storage Buffer	Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.	
Applications	Recommended usage	
FCM	Each lot of this antibody is quality control tested by flow cytometric analysis. Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use. We suggest each investigator should titrate the	

reagent to obtain optimal results [The recommended concentration is 0.1-1  $\mu g/10^6$  cells in 100  $\mu L$  volume].

#### Data

Mouse abdominal macrophages elicited by starch broth are stained with PE Anti-Mouse CD14 Antibody (filled gray histogram). Unstained macrophages (blank black histogram) are used as control.

Preparation & Storage	
Storage	Keep as concentrated solution.
	This product can be stored at 2-8°C for 12 months. Please protected from prolonged exposure to light and do not freeze.
Shipping	Ice bag
Antigen Information	
Alternate Names	CD 14;Monocyte differentiation antigen CD14;Myeloid cell-specific leucine-rich glycoprotein

### For Research Use Only

Uniprot ID	P10810
Gene ID	12475
Background	CD14 is a
	alaa kaaw

CD14 is a 53-55 kD glycosylphosphatidylinositol (GPI)-linked membrane glycoprotein also known as LPS receptor. CD14 is expressed on macrophages, dendritic cells, Kupffer cells, hepatocytes, and granulocytes. As a high-affinity receptor for LPS-LBP ( LPS-binding protein) complex, CD14, in association with Toll-like Receptor 4 (TLR4) or 2 (TLR2), is involved in the clearance of gram-negative pathogens.
