Elabscience®

BAG5 Polyclonal Antibody

catalog number: E-AB-13863

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description Reactivity Human;Mouse;Rat Immunogen Recombinant protein of human BAG5 Host Rabbit Isotype IgG Purification Affinity purification Conjugation Unconjugated Buffer Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. Applications Recommended Dilution WB 1:500-1:2000 Data Image and provide the solution pH 7.4, containing 0.05% stabilizer and 50% glycerol. Vestern Blot analysis of Hela cell using BAG5 Polyclonal Antibody at dilution of 1:500 Staties of 1:500 Calculated-W::51 kDa Staties of Hela cell using BAG5 Polyclonal Antibody at dilution of 1:500	Description

Preparation & Storage		
Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.		
Shipping The product is shipped with ice pack, upon receipt, store it immediately at the	0	-
temperature recommended.	~	

Background

The protein encoded by this gene is a member of the BAG1-related protein family. BAG1 is an anti-apoptotic protein that functions through interactions with a variety of cell apoptosis and growth related proteins including BCL-2, Raf-protein kinase, steroid hormone receptors, growth factor receptors and members of the heat shock protein 70 kDa family. This protein contains a BAG domain near the C-terminus, which could bind and inhibit the chaperone activity of Hsc70/Hsp70. Three transcript variants encoding two different isoforms have been found for this gene.
